

August 29, 2013

Frank,

I would like to take this opportunity to thank you and the Touch A Life Foundation for the generous donation of backpacks. San Jose Unified School District has many students that will benefit from this donation. Many of our students might not have had a backpack if it weren't for the generosity of the Touch A Life Foundation.

Here are a few examples of students that have received backpacks through this donation:

- Family of 4 living in their car, mother working part- time trying to support her family.
- Student living with his mother that is struggling with her own mental health and unable to work.
- Student whose family lost everything in a recent house fire.

I look forward to working together and continuing our collaboration.

Thank you,

Susan Aldrich, BSN
Healthy Start Coordinator
San Jose Unified School District
